Professional Summary

A results-driven Transformation Excellence Consultant with over 5 years of BI and Data experience accross many Industries and 3+ years of experience in finance processes automation within hospitality sector. Strong background in data analysis, reporting and visualization. Experienced in SQL, Domo, Power BI and Snowflake with proven success in delivering actionable insights and streamlining data processes. Passionate about leveraging data to drive strategic decisions and improve operational efficiency. Actively gaining experience in Data Science by completing degrees, datacamps and courses. Eager to combine my analytical approach and Business Intelligence experience with Machine Learning skills to maximize the potential of data driven decision making.

Key Skills

- **Data Tools & Technologies**: SQL, Python, DAX, M, VBA, Statistica, SPSS, OBIEE
- **Machine Learning & Data Analysis**: Parametric & non-parametric modeling, statistical analysis, supervised & unsupervised machine learning
- **ETL & Data Management**: Snowflake, SSMS, PostgreSQL, Azure SQL DB, Magic ETL, Data Modeling
- **Reporting & Visualization**: Domo, Power BI, Tableau, Tibco Spotfire, Data Storytelling
- **Project Collaboration Tools**: Confluence, Jira, Azure DevOps
- **CRM**: Delphi, Fidelio, Oracle, OnQ, Opera | ERP: Peoplesoft, Symphony Finance and Accounting, Unit4 | VMS: SAP Fieldglass, Beeline
- **Languages**: Polish (native), English (fluent)

Professional Experience

Transformation Excellence Consultant
Accenture (Remote| Warsaw Office) | 05.2025 – Present

Technical Business Analyst (Pharma | Life Sciences)

- Establishes and maintaines positive relationships with stakeholders across different levels and domains (Product Owners, Analysts, Developers, Scientists).
- Gathers business and technical requirements and runs discovery sessions with stakeholders.
- Introduces AI tools and implements specific use cases to optimize TBAs, Developers and Testers' work.
- Runs analyzes of data warehouse views and tables to find root causes of bugs and inefficiencies in definition queries to restore quality and accuracy of reported data.

BI Designer & Project Manager (Pharma | Life Sciences)

- Collected business requirements and run workshops with the Business.
- Prepared design prototypes and participated in regular development tasks through tech knowledge in PBI.
- Managed project and work on daily basis to drive teamwork and tasks tracking.
- Supported UATs and KT process.

Application Developer (Energy | Upstream)

- Used TIBCO Spotfire & Power BI expertise to design, develop and maintain effective data visualization solutions.
- Collaborated with cross-functional teams to ensure updates went as expected.
- Conducted system testing and troubleshooting to ensuring performance was not compromised.
- Utilized SQL & Python skills to enhance ETL processes.

Associate Business Intelligence Partner
Randstad Sourceright (Remote| Warsaw Office) | 03.2023 – 04.2025

- Designed and implemented end-to-end ETL processes utilizing SQL and Domo Magic ETL, ensuring data integrity and quality.
- Built comprehensive dashboards grouped by business metrics, enhancing decision-making for stakeholders across EMEA, NOAM and APAC regions.
- Acted as Sandbox Manager, created and committed dataflow and dashboard repositories in source instance and promoted them in Client instance, coordinated dataflow and dashboard development across global BI teams.
- Partnered with cross-functional teams to gather technical requirements, optimize dataflows and create role-based access models.

Senior MI Analyst
Hays (Remote| Krakow Office) | 08.2022 – 02.2023

- Spearheaded the development of a comprehensive reporting suite for new clients, automating data preparation and visualization.
- Delivered tailored analytics solutions by integrating diverse data sources using SQL and Power BI.
- Collaborated with stakeholders to define metrics, streamline processes and create intuitive, actionable dashboards.

Business Intelligence Specialist
AMS (Remote | Gdansk Office) | 10.2021 – 07.2022

- Delivered high-quality reports and dashboards using Power BI, SQL and Excel within defined SLAs.
- Designed and implemented BI standards, introducing efficiencies to reporting workflows.
- Provided training to junior BI team members and resolved advanced client queries.

Previous Roles in Finance & Analytics
Various Hospitality Organizations (2011 – 2019)

- Cluster Income Auditor (12.2018 – 08.2019), Ennismore – The Hoxton, London
- Income Analyst (10.2016 – 06.2018), DoubleTree by Hilton Hotel London – Westminster, London
- Income Auditor (08.2014 – 07.2015), London Hilton on Park Lane, London
- Income Auditor (12.2011 – 07.2014), Hilton Warsaw City, Warsaw

- Conducted advanced revenue reconciliation using Excel and VBA, improving financial reporting accuracy.
- Led internal audits and proposed revenue control strategies that enhanced organizational performance.
- Developed custom solutions to automate financial workflows and optimize operational efficiency.

Education

Sages (Kodołamacz) | AI & Machine Learning Engineering Bootcamp (12.2025 – 06.2026)

- 240 hours with Trainer
- Key Courses: Python, Machine Learning, Deep Learning, Natural Language Processing (NLP), Practical Object-Oriented Programming (OOP), Computer Vision, Retrieval-Augmented Generation (RAG), Docker, Kubernetes, AI Systems Implementation (components, architecture, optimization, versioning)

Sages (Kodołamacz) | AI & Data Science Bootcamp (04.2024 – 11.2024)

- 420 hours (256 hours with Trainer) + 80 hours additional coursework (Data Analysis in Python)
- Key Courses: Python, Numpy, Pandas, Matplotlib, Seaborn, Machine Learning, Statsmodels, Scikit-Learn, Deep Learning, Natural Language Processing (NLP), PySpark, Git, Object-Oriented Programming (OOP)

University of Gdansk | M.Sc. in Informatics and Econometrics (09.2019 – Present, Master Thesis in Progress)

- Specialization: Data Analysis – Big Data
- Key Courses: Machine Learning, Statistical Decision-Making, Data Warehousing, Advanced Visualization

University of Gdansk | B.Sc. in Informatics and Econometrics (09.2015 – 07.2018)

- Specialization: Business Informatics
- Key Courses: Statistics, Econometrics, Financial Analysis, Databases, Object-Oriented Programming (Java, C#)

Certifications

- **Python**: DataCamp (Intermediate Python – 12.2024), Sages (AI & Data Science Bootcamp – 11.2024), Sages (AI & Machine Learning Engineering Bootcamp – 06.2026)
- **SQL**: DataCamp (SQL for Joining Data – 08.2023, Data Manipulation in SQL – 04.2024)
- **Power BI**: DataCamp (Intermediate DAX – 06.2022, Intermediate Data Modeling – 09.2022, Data Visualization in Power BI – 02.2025)
- **Microsoft Fabric**: DataCamp (Data Ingestion and Semantic Models with Microsoft Fabric – 08.2025, Transform and Analyze Data with Microsoft Fabric – 08.2025)
- **Domo**: Domo Professional Certification v2.0 (09.2023)
- **Tableau**: DataCamp (Analyzing Data in Tableau – 12.2021)
- **MS Excel VBA**: Udemy (Unlock Excel VBA and Excel Macros – 10.2018)

Projects

- **Global BI Dashboard Implementation**: Designed and managed multi-region dashboards for Randstad Sourceright, improving data accessibility for key stakeholders.
- **Client-Specific Reporting Framework**: Delivered customized reporting solutions for Hays' key clients, significantly reducing report generation times.
- **Automated Revenue Reconciliation Tool**: Developed VBA-based tools for hospitality organizations, enhancing operational efficiency and financial reporting accuracy.

Interests

- Data Science, Neuroscience, FinTech, Global Economics, East Martial Arts, Swimming.
